

In the detail

FROM GLOWING COPPER SURFACES TO NATURAL WOOD CABINETS –
THE WAYS TO INJECT DECORATIVE ACCENTS INTO A KITCHEN ARE ENDLESS

MIX IT UP

Maximise the impact of your kitchen units, as demonstrated in this stunning design by Huntsmore, with exquisite finishing touches. The simple lines of the Shaker-inspired joinery are enhanced here with elegant brass handles that accentuate the tapered-edge door detailing as well as providing tactility.

The metallic theme is followed through in the normally unnoticed brackets that support the two eye-level shelves, accentuating the richness of the solid walnut and the daring green of the ceiling colour, courtesy of Little Greene's Hopper. And tying it all together beautifully is the simply styled but all-important kitchen tap, in a brushed brass that gives it a practical and visual beauty. →
